Tap in some Bob Ross style trees against a glowing sunset!

1) Begin by loading your $\frac{3}{4}$ " flat brush with yellow. Using horizontal strokes, paint the bottom half yellow.

2) Without cleaning the brush, load it with red and paint the middle of canvas. Blend.

3) Without cleaning the brush, load it with blue or purple and paint the top of canvas. Blend. Clean brush. Let dry.

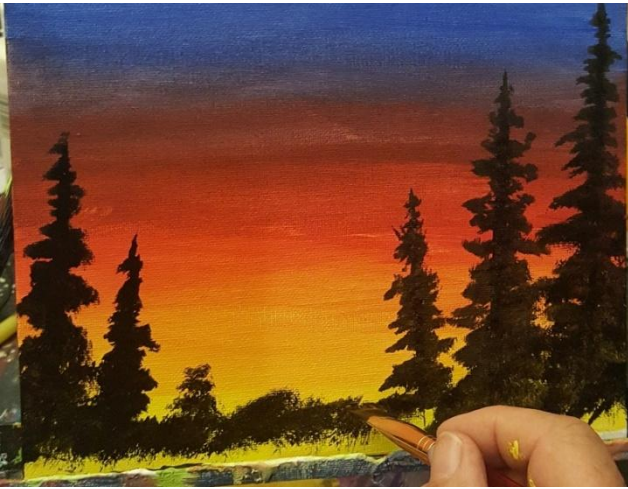

4) Load the same $\frac{3}{4}$ " flat brush with black and pull down a thin vertical tree trunk.

5) Turn the brush horizontally and using the corner of the brush, tap in a tree shape.

6) Yep. Give him some friends, enlarging the trees as you paint outward toward the canvas edge.

16) Tap in some trees on the left side, and still tapping connect the two clumps of trees with a bushy horizon line. Complete the silhouette by painting the lower portion solid black.

16) Load a script liner with black thinned with water. Pull up little grassy areas, twigs and other shapes to add interest.

Drop in a couple 'm' birds as desired. Don't forget to sign your painting!

Clean your brush often. Remember proper brush/tool care to extend its use. Thanks!

Create A Pizza Box Easel

Unfold a 10" or larger pizza box backward over its center. Fold until it's an inside-out upside-down 'V'. Create a cardboard brace and tape it to the easel's edges and/or tape the front/back bottom edges to the table with masking tape.
